

**REMARKS**

Entry of the above amendment is appreciated. Also submitted herewith are four (4) replacement sheets of drawings submitted in response to the Examiner's objection to the drawings in the Office Action dated November 6, 2006. These same amendments were made in the parent case. Support for the above amendment to the specification can be found in Fig. 2 and the specification. Such amendment does not present new matter. Reference number fifty-two (52) has been removed from Fig. 3, reference number seventy-six (76) has been removed from Fig. 4, and reference number fifty-four (54) of Fig. 6 has been changed to reference number fifty-seven (57) to coincide with reference to the cross-sectional view of a single detector cell as stated in paragraph [0030] of the specification. The Examiner's reference to reference numeral "7" is believed to be an error on the Examiner's part as the only "7" found by Applicant is a page number. As such, the amendment to the specification and the drawings does not present new matter.

Applicant cordially invites the Examiner to contact the undersigned with any questions.

Respectfully submitted,

/Timothy J. Ziolkowski/
